IV

Read the following fact file on key technological inventions shaping global development. Decide whether the statements from 23 to 26 are True or False, and choose the correct answers to complete the statements in the questions 27 and 28. (1.5 pts)

Key Technological Inventions Shaping Global Development!

Countless remarkable inventions have shaped human history, changing the lives of our ancestors and enabling us to create the future we enjoy. Documentation and sharing of these advancements have allowed knowledge to spread across generations. Listed below are two examples of technological inventions that have played a significant role in driving global development.

The Internet is one of the most impactful inventions in human history. It began with the connection of four university computers to ARPAnet in 1969, paving the way for global networking. Key advancements like Vinton Cerf's TCP in the late 1970s and

Tim Berners-Lee's World Wide Web in 1991 transformed how we interact and share information. Since the 1990s, search engines and browsers have been key tools for using the internet, from landline connections to today's mobile internet.

Another important invention is GPS (Global Positioning System), which was first developed in 1973 by the U.S. Department of Defense. GPS became available for civilian use in the 1980s. It helps people find their way, whether driving in a city or exploring the outdoors. It also allows delivery companies to plan routes and helps emergency services locate people in need.

23. Sharing technological inventions has passed knowledge through generations.
24. The Internet started in 1970 when three university computers linked to ARPAnet.
25. Search engines and browsers have been essential for internet use since the 1990s, evolving from mobile internet to landline connections today.
26. GPS was not available for civilian use until the 1980s.
27. GPS helps people in many ways, including _____.
- A. sharing information, interaction and emergency services B. navigation, global networking and route planning
- C. navigation, delivery planning and emergency assistance D. exploring the outdoors, sharing information and economic transformation
28. All of the following statements are mentioned in the fact file EXCEPT _____
- A. Tim Berners-Lee's invented the World Wide Web in 1991. B. The U.S. Department of Defense first developed GPS in 1973.
- C. The Internet is among the greatest inventions of human history. D. GPS can provide tracking information through various websites.

Use the correct form of the word given in each sentence. (1.5 pts)

29. According to _____ data from multiple recent studies, it has shown a breakthrough in cancer treatment. (experiment)
30. The city planners intend to transform this residential area into a new _____ site. (industry)
31. Last year, my father _____ me to confront my fear of heights by going paragliding. (courage)
