Conversation 1

What's the matter?	Have you tried talking to her?
My boss keeps on giving me extra work.	I'd ask to speak to her if I were you.
I think you should ask for an extension	What do you mean by 'extra work'?
That should sort it out temporarily	It looks like you've got a communication problem to me.

## Conversation 2

How can I help?	That should fix it.
It keeps on going wrong all the time.	It's always crashing and it won't remember the time or date.
What's wrong with it exactly?	It sounds as though it could be a battery problem.
The best thing would be to buy a new battery.	When you say 'it's always crashing', do you mean it stops working or it switches off?
