

Reading Comprehension

My name is Lili, and I live in a small town near the mountains, where the weather changes a lot during the year. We have all four seasons, and each one brings something special.

In spring, the days get longer and the temperature starts to rise. I usually wear jeans and a light jacket when I go outside. I enjoy walking in the park, especially when the flowers bloom and the birds return. School is still busy in spring, but I try to study outside when it's sunny.

Summer is very hot in my town. Temperatures often go over 30°C, so I wear shorts and T-shirts almost every day. My family doesn't travel much, but we sometimes drive to the lake for swimming and picnics. I also help my mom in the garden.

Watering the plants in the early morning is one of my favorite summer routines. In autumn, the air becomes cool and fresh. I switch to wearing sweaters, jackets, and boots. The trees look beautiful with red and orange leaves, but the weather is more unpredictable—it can be sunny in the morning and rainy in the afternoon. I always keep an umbrella in my school bag.

Winter is the coldest season here. It snows about once or twice a month, and the roads can be icy. I don't enjoy going out much, so I usually stay inside, drinking hot chocolate and reading books. When my younger brother wants to play in the snow, I go with him and we build snowmen in the garden.

Choose True or False.

1. Lili studies inside during spring because it's still cold.
2. Lili's family often visits other countries in summer.
3. Lili enjoys watering the plants early in the day.
4. The autumn weather is usually the same all day.
5. Lili usually stays indoors in winter.
6. Lili lives in a place that has all four seasons.
