Part 3

PET 01 T4P3

Welcome, everyone. I'm Mike, your guide on today's walk in the beautiful 1..... here.

I'm sure you'll want to know how long the walk will 2..... Well, there are two possible routes, one of which takes four hours, and the other five. We'll be taking the 3..... one, as it has fewer hills. We'll be at our destination by around 4.....

Right, things to be careful of. It's a fairly easy route, and there are good 5..... There are some steps to climb in some parts, but in this dry weather you won't 6..... Please look out for 7....., though. Cars aren't a problem, as our route avoids public 8.....

I hope you've all remembered to bring 9..... with you, as the café at the visitor centre we'll pass is closed for repairs. Instead, I've picked a great place to eat by the 10..... We'll also have a shorter break at the 11....., so you can take photos.

For people who are interested in 12....., there's plenty to see. You'll be pleased to know that there are lots of 13..... at this time of year. The forest is famous for its 14....., but they stay hidden away during the daytime unfortunately.

At the end of our walk, I'm afraid you won't find a shop selling 15....., or anything like that. There is a 16....., though. It's not very big, but it is interesting, and a nice place to rest after a long walk!

Finally, you'll want to get back to where we 17.....! There used to be a 18..... station in the area, but it's been many years since a train went through there. There's a 19..... service, although you may have to wait a while. A 20..... driver will never come this far out of town, so that's really the only option.

Right, let's go!
