

# PROGRESS TEST 1

Exam focus: past simple tense in all forms, making questions, used to, business-related vocabulary.

In this progress test, we are going to work with a documentary that explores the history of *Nike*, from its origins as *Blue Ribbon Sports* to becoming one of the world's most iconic brands.

Nike's journey began with founder Phil Knight's bold idea: importing Japanese running shoes to challenge the dominance of German brands like *Adidas* and *Puma*. Inspired by the success of Japanese camera companies overtaking German competitors, Knight believed the same could happen in the sports shoe industry.

Like any big company, Nike's rise wasn't without controversy. This business documentary dives into the inspiring success story of Phil Knight's empire, offering lessons in entrepreneurship, marketing, and perseverance, while also addressing the challenges and controversies that shaped Nike's legacy.
