Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct word or phrase that best fits each of the numbered blanks.

Digital Nomads: Changing the Way We Work

Digital nomads, once seen simply as freelancers or travel bloggers working from various locations, (1)_____. A digital nomad is someone who performs their job remotely while moving frequently between different cities or countries. Today, this lifestyle includes not only creative professionals but also engineers, consultants, and many others.

The rise of fast internet connections and cloud-based tools, along with the growing number of co-working spaces worldwide, has made it easier for people to work this way. As a result, many countries have started offering "digital nomad visas", (2)_____. Estonia was among the first to introduce such a visa in 2020.

However, working remotely and constantly traveling also brings challenges. Not having a regular office environment, (3)_____. Working across different time zones can also make it difficult to communicate with clients or colleagues effectively.

(4)_____. Despite this, many digital nomads value the opportunity to explore new cultures and enjoy professional freedom more than traditional stability. They are willing to live with uncertainty if it means experiencing the world and controlling their own work.

With technology advancing and remote work becoming more common, (5)_____.
