

Dear Mark,

My family is having a great time on this summer holiday.

Today we've been (1) visit the Eiffel Tower. It was the first time I had been there. My father told me about it in my geography lessons and he showed me some (2) of the tower, but in the pictures it looks much smaller (3) it is.

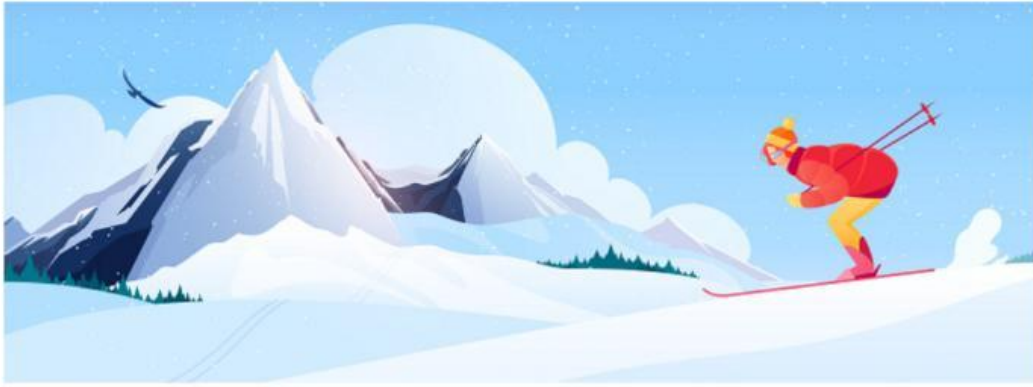

I (4) lots of photos with my camera when we went to the 2nd floor, by elevator. When you go to the 2nd floor, you can see all the sights of Paris. The sky is blue and the city is beautiful. We are going to go and see other sights tomorrow. I am very excited (5) I have always wanted to visit the tower. My mum doesn't want to get into the elevator. She says she has a fear of heights.

I will write to you in the next letter.

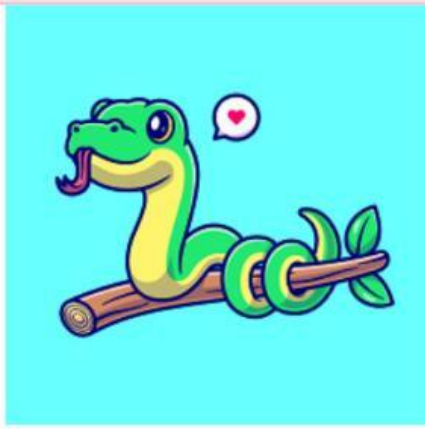

Lots of love,

Sarah

Last winter, I went with my best friend, Sarah and her parents on a skiing holiday in the mountains. It was extremely cold and the snow was excellent. We skied in the morning, my friend and I had (1) on our sledges. I failed mostly, because my sled was so (2) Luckily, I learnt to win on the last day. We also built a lovely snowman on the ground in front of our homestay. We used 2 stones for his eyes, a carrot for his nose and a banana for his (3) He had long arms with orange gloves and a striped, red scarf. He looked very friendly. We watched people skate (4) the park in the evenings. They skated very quickly and no one fell over. I felt very lucky to join my friend's holiday. I would like to return to that place in the mountains (5) year. It will be a wonderful time.

Last Sunday, Richard went to a zoo with his cousin and his family. It was a very interesting day and they had lots of fun. They went by bicycle because it only (1) about 20 minutes. (2) was a windy day and the sky was cloudy. There were different types of animals in the zoo. David - Richard's cousin spent time (3) at the elephants and the zebras while Richard kept searching for reptiles. At last, he found a python in one corner of the zoo. It was so big and looked so dangerous. It was lying next to a cave and they found it hard to see. The cave was surrounded (4) grass. Richard and his relatives looked around and waited, and suddenly it appeared. He said loudly "Wow! I have seen pictures of pythons in books before and I have seen a film about pythons but this was the (5) time I had stood so near to one. It was like a dream.
