

World Health Day

When is World Health Day celebrated?

April 7th

May 24th

December 5th

Why do we celebrate World Health Day?

Because we are healthy

To raise awareness about global health issues

To help the sick

What is the theme for World Health Day this year?

Reduce, reuse, recycle

Healthy beginnings, hopeful future

Unhealthy beginnings, no future

What is the WHO focusing on this year for World Health Day?

The world

Maternal and newborn health

Recycling
