

Building Arguments

Khi tranh biện, em cần xây dựng được những lập luận thật rõ ràng. Trước tiên, em phải chọn được các lập luận hỗ trợ tốt cho lập luận chính của mình. Sau đó, hãy tìm những dẫn chứng cung cấp cho từng lập luận hỗ trợ đó. Cuối cùng, em cần giải thích vì sao lập luận của đối thủ là không đúng. Đó gọi là phản biện.

Main Argument

Which is better, one season or four seasons?

Here's why I think one seasons is better.

Joshua

It is much better to live in a country with only one season. This is because we know what the weather will be like. People living in a country with four seasons cannot guess the weather conditions. As a result, they may cancel their plans to go hiking or go to the beach. This is because it may rain or become cold. Also, it is healthier to live in a place with the same season. Many people in Korea get sick when the seasons change.

Melissa

I believe that it is much better to live in a country with four different seasons. Each season, people can do different activities. In the winter, they can do snow sports. In the spring and fall, they can go to the mountains. In the summer, they can go swimming. It is a lot of fun. Also, you can have a stronger body. This is because you can experience hot and cold weather. People living in a place with one season get sick when they go to a country with four different seasons.
