Teeth

Example Every time we eat we ..use.. our teeth. Teeth help us to break our food into small pieces.

1 ..... are three different kinds of teeth: 'incisors', 'molars' and
2 'canines'. ..... kind has a different job. The incisors are the
3 teeth ..... the front of the mouth. We need them to cut our food.
4 The molars are ..... biggest teeth in our mouths. Between the incisors and the molars we have the canines. They are longer
5 ..... the other teeth.
6 Children's first teeth are ..... 'milk teeth'. Children usually
7 have twenty milk teeth and they have ..... of them when they are about two years old.
8 When children are seven or eight years old they start to ..... new teeth. Grown ups have thirty-two teeth.
9 It is very important for us to look ..... our teeth. We should
10 ..... them with a toothbrush after every meal and it is good to go to the dentist every six months.

Hippos

Example 'Hippo' ...is... a short word for 'hippopotamus'. The word

1 'hippopotamus' means 'river horse'. Hippos are ..... river

2 horses because they live ..... rivers and lakes and eat grass.

Hippos never eat meat but they are very strong and brave animals.

3 They aren't afraid ..... crocodiles or boats. When they

4 ..... angry, they open their mouths to show their big teeth.

5 The eyes and nose ..... very high on a hippo's head. This

means that a hippo can swim with only the top of its head out of the water. It can still see, and take in air through its nose. But hippos also

6 like going under the water. They are very good ..... walking

on the bottom of a lake. They close their noses and ears and can stay

7 under the water ..... five minutes!

8 ..... night, hippos leave the water and spend five

9 ..... six hours eating grass. But early the next morning, they

10 ..... to go back into the water before the hot sun comes up

in the sky again.

Planets

Example We live on one ...of... nine planets. The name of our planet

1 is Earth. The other eight planets are ..... Mars, Mercury,
Venus, Neptune, Uranus, Pluto, Jupiter and Saturn. The planets

2 are like big balls of rock and metal and they ..... go round
the sun. The sun is not a planet, it is a very big star.

3 Jupiter is bigger ..... the other planets and it has got 16
moons. Pluto is the smallest planet, and it is the coldest one because

4 it is very far from the hot sun. Pluto has ..... got one moon.
Mercury is the nearest planet to the sun and it is very hot.

5 Our planet Earth is ..... Venus and Mars but they are very

6 far from us. Rockets take ..... very long time to go from one

7 planet to another. Earth is the only planet ..... things grow
and people and animals live. Some people think that there are people

8 ..... animals on some of the other planets. No one has

9 ever ..... to the other planets.

10 Perhaps people ..... go to visit the other planets in the
future.
