Building Arguments

Khi tranh biện, em cần xây dựng được những lập luận thật rõ ràng. Trước tiên, em phải chọn được các lập luận hỗ trợ tốt cho lập luận chính của mình. Sau đó, hãy tìm những dẫn chứng củng cố cho từng lập luận hỗ trợ đó. Cuối cùng, em cần giải thích vì sao lập luận của đối thủ lại không đúng. Đó gọi là phản biện.

Main Argument

Students should be allowed to grade their teachers.

Answers: p 110

Students should grade teachers for sure! 05

Teachers need to be graded, and students are the best people to do it. Students learn from their teachers for many months. They know exactly how well their teachers teach and how much their teachers care about them. Other adults who try to grade teachers cannot tell these things just by watching one or two classes. Schools need to trust their students to grade their teachers well.

Summary Cindy states that students know how well their teachers _____ and how much they _____ about students.

Letting students grade teachers is a bad idea. 06

Students are not mature enough to grade teachers. They do not know which teachers are the best. For example, students would not like teachers that make them work hard and learn a lot. So they would not give them fair grades. On the other hand, students would give high grades to teachers who do not actually teach and let the students play during class.

Summary Evan says that students are not _____ enough to give good teachers _____ grades because they do not know which teachers are the best.
