His hair and face _____

7. Could you tell me where I can find more information about this specialty? (TO)

Could you tell me _____ about this specialty?

VII. Read and choose the correct answer:

Ever since humans have inhabited the earth, they have made use of various forms of communication. Generally, this expression of thoughts and feelings has been in the form of oral speech. When there is a language barrier, communication accomplished through sign language in which motions stand for letters, words, and ideas. Tourists, the deaf, and the mute have had to resort to this form of expression. Many of these symbols of whole words are very picturesque and exact and can be used internationally; spelling, however, cannot.

Body language transmits ideas or thoughts by certain actions, either intentionally or unintentionally. A wink can be a way of flirting or indicating that the party is only joking. A nod signifies approval, while shaking the head indicates a negative reaction. Other forms of nonlinguistic language can be found in Braille (a system of raised dots read with the fingertips), signal flags, Morse code, and smoke signals. Road maps and picture signs also guide, warn, and instruct people.

While verbalization is the most common form of language, other systems and techniques also express human thoughts and feelings.

1. Which of the following best summarizes this passage?

- A. When language is a barrier, people will find other forms of communication.
- B. Everybody uses only one form of communication.
- C. Nonlinguistic language is invaluable to foreigners.
- D. Although other forms of communication exist, verbalization is the fastest.

2. Which of the following statements is not true?

- A. There are many forms of communication in existence today.
- B. Verbalization is the most common form of communication.
- C. The deaf and mute use an oral form of communication.

THE END
