

## Subtraction by Crossing Lines

Draw lines, then cross the lines and subtract. One has been done :

$$9 - 6 = 3$$

$$5 - 4 = \square$$

$$12 - 6 = \square$$

$$15 - 3 = \square$$

$$10 - 4 = \square$$

$$17 - 4 = \square$$

$$11 - 8 = \square$$

$$19 - 8 = \square$$

$$9 - 3 = \square$$

$$13 - 12 = \square$$
