B Write the words.

single-digit number double-digit number minus sign ~~row~~ column

1 row

2 3

4

5

The diagram shows two subtraction problems. The first problem is $75 - 9 = 66$. The second problem is $74 - 62 = 22$. Labels 1, 2, 3, 4, and 5 point to specific parts of the problems. Label 1 points to the word 'row' in the first problem. Label 2 points to the first digit of the first problem. Label 3 points to the second digit of the first problem. Label 4 points to the first digit of the second problem. Label 5 points to the second digit of the second problem.

C Match the beginnings of the sentences to the ends.

- | | | |
|--|---|----------------------------|
| 1 Twenty-six is | ● | ● a have a minus sign |
| 2 When we subtract, | ● | ● b three apples left. |
| 3 All subtraction problems | ● | ● c we take things away. |
| 4 I have seven apples. I eat four apples. I have | ● | ● d a double-digit number. |
-
- A curved line connects the dot next to sentence 1 to the dot next to option d.
