

BRIDGING LEARNING LOSS FOR RURAL PRIMARY SCHOOL STUDENTS PROGRAMME

SK Abun Matu is a rural primary school located near the Belaga district in Sarawak. We proudly serve a diverse community of 546 students with the support of a dedicated team of 36 teachers. Our students come from families primarily engaged in agriculture. Reflecting the resilience and hardworking spirit of our community. Despite limited resources, we are committed to providing quality education and empowering our students to achieve their full potential.

1 STUDENTS LEARNING CHANGES

- Increased use of digital tools, requiring better access and digital literacy.
- Focus on individual needs and abilities for better engagement.
- Emphasis on critical thinking, creativity, and adaptability for future readiness.

2 IMPROVE ENGLISH FROM ZERO TO HERO

- Focus on foundational skills like vocabulary, and pronunciation.
- Features like games, and exercises allow students to practice English boosting confidence and pronunciation in each words.

3 KAYAM SCHOOL APP IMPACT TO MY STUDENTS

- The app makes learning fun and keeps students motivated to improve their English.
- Kayam helps students learn at their own pace.
- The app incorporates repetition and listening activities, reinforcing vocabulary retention and helping students understand word meanings more effectively.

4 MY EXPERIENCE

Since integrating Kayam School into my teaching, I've seen a remarkable transformation in my students. Many who initially struggled with English are now more confident, actively participating, and retaining vocabulary through the app's repetition and listening activities. The app has created a more interactive, student-centered environment, motivating students to take ownership of their learning. This change is particularly impactful in our rural setting, where resources are limited. Looking ahead, I am confident that Kayam will continue to enhance students' language proficiency and inspire a lifelong passion for learning.
