

## HOW TO OPERATE AIR FRYER

### **Order the following instructions in order to make logical sequence**

Choose appropriate cooking functions like Air Fry, Bake, Roast, etc

Adjust cooking time and temperature based on recipe or convert from oven/deep-fry guidelines.

Check if preheating is needed; it usually takes a few minutes.

Clean all parts, place on a flat surface, and check the manual for clearance.

Lightly oil and season food, avoid wet batter or leafy greens, and spray the basket to prevent sticking.
