At the moment, scuba diving has four main areas of interest: recreation purposes, commercial purposes, scientific research and military

activity as well. The most frequent reason why people go scuba diving is because they want to relax in a special way, by having contact with a less known world.

A great thing about this sport is that it can be practiced anytime around the year; however, you should choose the summer if you have problems with low temperatures. Once you take the lessons, you get the basic knowledge before diving, you should talk to a specialist and obtain quality equipment for this activity. For the beginning, you can only rent scuba diving equipment, but if you get **attached** to this sport, then you will have to purchase one of your own at some moment. Some of the most important parts of the scuba gear are the mask, the snorkel, the diving suit, the gloves, the boots and the diving regulator.

If you finally decided to try scuba diving and you already took some scuba courses then you must be thinking about what location to choose.
