heart
graduated
hit
enrolled
notes
hand
grades
research
expelled
took

3. Write down the missing words in the text

For many students, exam preparation might tough. Some students prefer to hit the while others would like to enroll a course to prepare for an exam. Learning materials by is not the best way to remember something since the students don't do the research or take time to understand something, but mechanically memorize information. The best way to avoid stress before the test is to attend classes and make sure to take from the lessons.
