

Name: _____

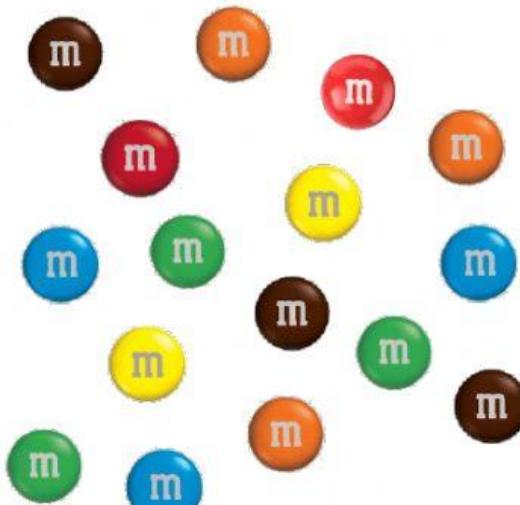

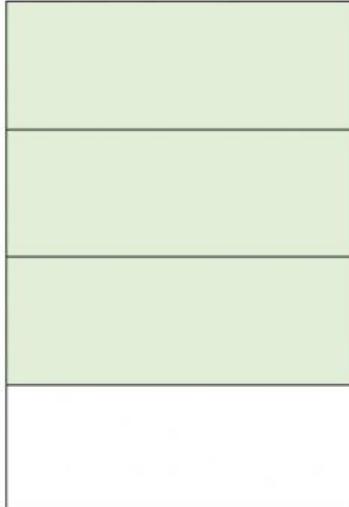

Retake Quiz

Parts of a Group and Multiplying a Fraction by a Whole

1) Find part of a group. Use a model to solve.

What is $\frac{3}{4}$ of 16 m&m's?

Drag and drop the m&m's evenly into each of the 4 parts.

How many m&m's total are in the 3 out of the 4 parts? _____

This means that $\frac{3}{4}$ of 16 m&m's or $\frac{3}{4} \times 16 =$ _____

2) Multiply. Write your answer in simplest form. If your answer is an improper fraction, write it as a mixed number.

$$\frac{2}{3} \times 5 = \frac{\text{ }}{\text{ }} = \frac{\text{ }}{\text{ }}$$
