

Picture 1.2 Bekantan

Part 2 Habitat
Where does it live?

Bekantans are from Borneo, right? So, we can find them in Indonesia, Malaysia, and Brunei.

Yes, but we can find them mostly on the Indonesian side.

Really?

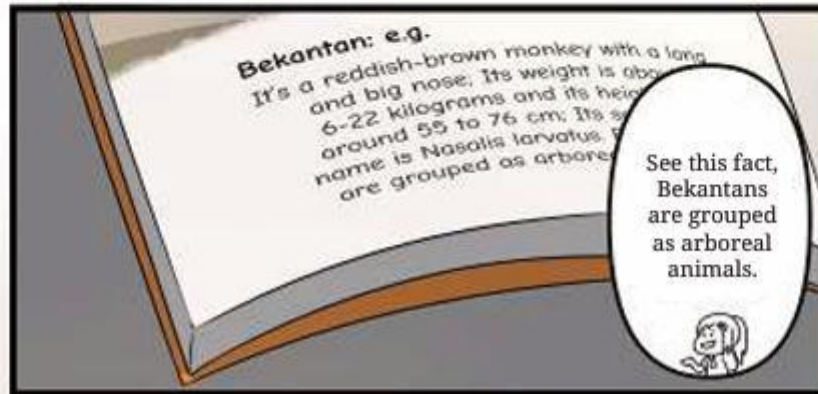

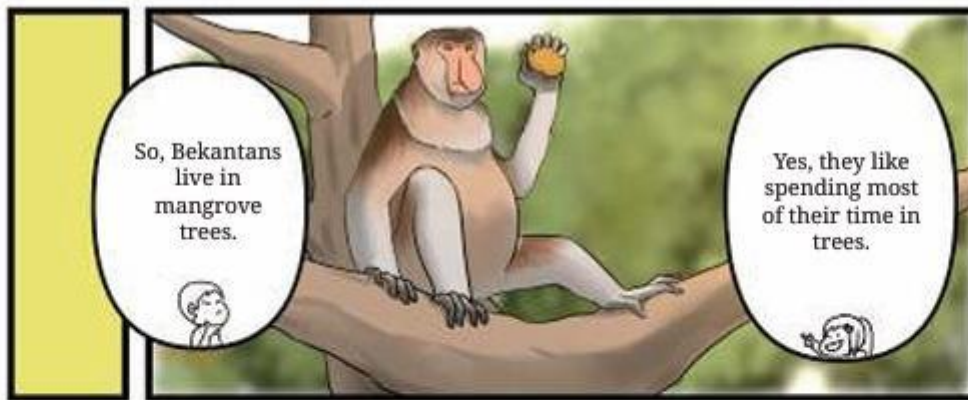

Yes, that is why Bekantans are used as the icon of

Banjarmasin, South Kalimantan.

Well, I believe we can find these monkeys in Borneo forests.

Right, specifically in mangroves.

You know, mangroves are a type of rainforest that meet the sea.

Andre and Monita are talking about the habitat of Bekantan. Then, read statements in the worksheet below. Write "T" if the statement is true and "F" if it is false.

1. We can find Bekantans mostly in Kalimantan. ☐
2. Bekantan can be found in Indonesia, Malaysia, and Brunei. ☐
3. We can find Bekantans mostly on the Malaysian side. ☐
4. Bekantans are the mascot of the capital city of South Kalimantan. ☐
