How Oranges Grow

Let's Focus

How do oranges grow on trees?

▲ California, USA

Oranges come from trees. These trees **grow** in **warm** places like California. Let's learn how oranges grow on a farm in California.

In spring, orange trees have white flowers. When the flowers lose their petals, **tiny** oranges begin to form.

The oranges grow all summer and fall. They need plenty of sun and water. Some oranges need five months to grow big. Other oranges need up to fifteen months.

In winter, the farmers are ready to **pick** the oranges. But oranges get **sweeter** on the tree. So sometimes the farmers **wait** a few months!

Words 94
