

Group B

"Kuwait is a very rich country but there are still so many ecological problems" - says Fatemah Alzelzela.

Fatemah is a young lady who used her own money to help Eco Star company in recycling rubbish from homes, schools, and restaurants.

1.5 kilograms of rubbish from one person everyday... That's really awful.

Fatemah decided to change the situation. With her help Eco Star company has recycled about 3.5 tonnes of plastic, 10 tonnes of paper and 120 tonnes of metal in a year.

Fatemah says that she doesn't want to see how people and animals die because of ecological problems. She thinks that every person can do something to help our planet live a long and happy life.

1. What is the woman's name? _____
2. Where is she from? _____
3. What does she do? _____
4. Why does she do it? _____
