

**Practice 2**

Read the text below. Six sentences have been removed from the article.  
Choose from the sentences (A – H) to fit each gap (1 – 6).

### The World of Robotics

The development in Science has brought a lot of changes into the world and the life of human beings. Let us explore into a captivating world of robotics. Robotics is an interesting part of Science that can lend a helping hand in doing a lot of work for us.

It is just very handy that we own many appliances to make life easier. (1) \_\_\_\_\_ However, they cannot function on their own. What if somebody can do the tasks for you? It will be fantastic! Scientists and engineers have found that inventing robots to help with certain jobs is great. (2) \_\_\_\_\_ They think about the designing, building, programming and creation of the robots.

There are a variety of robots, or machines that have been created to do important work which can keep us healthy and make our jobs easier. (3) \_\_\_\_\_ If the automobile industry uses robots to build cars, robots in factories enable mass productions of items in industries such as food and clothing. Work can be done quickly whereas the cost of production can be kept low. (4) \_\_\_\_\_

In some countries, robots are used in restaurants to prepare food and even serve the customers. Robotics engineering is also important during the exploration of the outer space and the deep sea. (5) \_\_\_\_\_ Those robots are well-equipped with cameras that take images and videos, in which researchers can learn a lot of information that they provided.

(6) \_\_\_\_\_ We cannot live without them because they certainly provide us convenience and comfort!

- A Robotics are used to help doctors to carry out operations on patients in order to save their lives.
- B For example, we have washing machines, blenders, juicers and mixers.
- C People always like to work together.
- D Everybody wants to buy them.
- E We cannot deny the importance of robotic technologies in our lives.
- F Robots are sent there instead of human beings.
- G Therefore, the products can be sold at a cheaper price to the consumers.
- H Some of these people often cooperate with each other in their work.
