Canadian holiday

Gary

Last summer, my family and another family we're close to went by coach to Canada. It was a long journey and the coach was crowded, so I was really glad when we finally arrived. We stayed in a little wooden house in the middle of a forest. The weather wasn't too hot, which I was pleased about. The best thing was the horse riding. It was my first time on a horse, but I had lessons every day and by the end of the holiday I was quite good.

Marcus

I went to Canada in August with my family. My mum booked everything online, and we got a non-stop flight from the UK. We stayed in a little hotel in a town called Whistler. From our room, we could see beautiful mountains and fields of flowers. We did lots of activities, including swimming, hiking and whitewater rafting. There was an interesting shop in town where I found things to take back home for my friends.

George

I learnt to fish last summer, so my parents bought me fishing equipment as a birthday present. They said Canada is great for fishing so we could go there for our holiday to try it out. We drove from our home in the US to the national park and put up our tent near a lake. The next day it was raining so hard you almost couldn't see the lake. But I thought, 'Fantastic, that's perfect for catching fish.' And it was true, because I caught five that day. I took lots of photos to show my friends back home.
