

Unusual ball sports

You need a ball to play many sports such as football, tennis, hockey, volleyball, cricket and rugby. These sports are very popular. But there are some very unusual ball sports, too.

Unicycle hockey

You use a hockey stick and a ball when you play hockey. In unicycle hockey, you use a hockey stick and a ball, too. However, the players don't stand on the ground – they ride unicycles! A bicycle has got two wheels (bi = two), but a unicycle has got only one wheel (uni = one). It is difficult to ride a unicycle. People play this sport in the UK and in lots of other countries, too.

Underwater football

Do you like playing football? Underwater football is similar to football, but you play it underwater! You come out of the water to breathe, but when you have got the ball, you stay underwater. You need to be very good at swimming! This sport is popular in Canada.

Bossaball

Bossaball is a sport from Spain. It is similar to volleyball but you play it on a trampoline! You can jump and dance when you play this game.

- 1- To play unicycle hockey, you need a hockey stick and a..... and a unicycle.
