NEW SCHOOL

My name is Diana. I have just finished my first week at a new school and I would like to tell you about it. Like other children in my country, I went to primary school until I was twelve and then I had to go to a different school for older children. I loved my primary school but I was excited to move to a new school.

It was very different on our first day. There were some kids from my primary school there, but most of the children in my year group are from different schools. But I soon

started talking to the girl who was sitting beside me in science. She lives near me so we walked home together. We are best friends now. When I saw our timetable there were lots of subjects, some were quite new to me! Lessons are harder now. They are longer and the subjects are more difficult, but the teachers help us a lot.

At primary school, we had all our lessons in one classroom. Now each subject is taught in a different room. It was difficult to find the classroom at first because the school is so big. But the teachers gave us each a map of the school, so it is getting easier now. The worst thing is that I have lots more homework to do now. Some of it is fun but I need to get better at remembering when I have to give different pieces of work to the teachers!

10. How did Diana feel about going to a new school?

- A.** She was worried about being with lots of older children.
- B.** She felt happy about the idea of doing something different.
- C.** She was happy because she was bored at her primary school.

11. What was different on her first day at the new school?

- A.** Most of the children of her age group came from different schools.
- B.** There were some children who came from the same school as her.
- C.** There was a girl who lived near her house and was sitting next to her.

12. How did she find the subjects in the school?

- A.** easier
- B.** simpler
- C.** difficult

13. Why was it harder to study in the new school?

- A. all the lessons in the same classroom
- B. different subjects in different room
- C. having a different map for each class

14. Which sentence shows that her life at the new school is hard?

- A. having much more homework to do
- B. need to get better to remember the subjects well
- C. need to remember all the names of all the teachers

A	Nasha Today, my friends and I went scuba diving at Pulau Pangkor. We put on diving goggles, wetsuits, and flippers to swim better. We used breathing equipment to help us stay below the water. We saw many fish and other sea animals in the clear water. My favorite was the big sea turtles. They swam slowly with their arms, and it was so interesting to watch them. We all had a great time exploring the sea!
B	Su Yan I've been on a banana boat ride but I've never tried kayaking. So, for my birthday today, my sister took me kayaking at a lake I had never visited before. We booked the double kayak for two hours. While kayaking, we saw many sights I had never seen before, including the interesting Kuala Kangsar Museum, the beautiful Titiwangsa Lake Gardens, and the amazing Langkawi Sky Bridge. It was a long day, but we had a great time.

	Yesterday, I went white-water rafting at Kuala Kubu Bharu with my family. To
	stay safe, we put on life jackets and hats. Since it was my first time, I listened
	carefully when the guide explained everything. It was exciting to be on the raft
	as we moved along a series of rapids. I held on securely to the raft's side
	because I didn't want to fall into the river. I shouted with fun each time water
	hit my face.
