

Asesmen Sumatif Akhir Semester Ganjil

SMP Wachid Hasjim 9 Sedati

Tahun Ajaran 2025/2026

Identitas Peserta

Nama : _____

No : _____

Kelas : _____

Mapel : Bahasa Inggris

Please read this text carefully!

National Parks are areas of protected land set aside for the conservation of natural beauty, wildlife, and cultural heritage. These designated spaces offer a sanctuary for various species of plants and animals, preserving their habitats and supporting biodiversity. National Parks also provide recreational opportunities for visitors, allowing them to connect with the great outdoors.

These parks are spread across the globe, each with its unique ecosystems, landscapes, and histories. In the United States, for instance, there are iconic National Parks like Yellowstone, known for its geysers and hot springs, and the Grand Canyon, a breathtaking chasm carved by the Colorado River over millions of years.

The creation and maintenance of National Parks require a delicate balance between conservation and tourism. Park authorities work tirelessly to protect these natural wonders, ensuring that they remain unspoiled for generations to come.

1. What is the primary purpose of National Parks?

2. Which park is known for its geysers and hot springs?

3. What do National Parks help conserve?

4. What does the Grand Canyon represent?

5. What role do park authorities play?

6. National Parks provide opportunities for visitors to _____

7. The designated spaces in National Parks serve as a sanctuary for _____

8. What helps keep National Parks unspoiled for the future?

9. "Biodiversity" refers to _____

10. National Parks are spread across the globe, each with unique _____

PLEASE DO THESE QUESTIONS BELOW BY USING THE “TRUE” OR “FALSE” ANSWER!

11. National Parks aim to preserve habitats of various species.

12. Yellowstone is famous for its deep canyon.

13. Grand Canyon was formed by a river over millions of years.

14. National Parks focus only on tourism.

15. Park authorities protect natural wonders from damage

16. National Parks exist only in the United States.
