

✚ Fill in the table with the correct information it needs:

| Shape                                                                               | Number of straight sides | Number of curved sides | Number of corners |
|-------------------------------------------------------------------------------------|--------------------------|------------------------|-------------------|
|    |                          |                        |                   |
|    |                          |                        |                   |
|   |                          |                        |                   |
|  |                          |                        |                   |
|  |                          |                        |                   |
|  |                          |                        |                   |

|                                                                                   |  |  |  |
|-----------------------------------------------------------------------------------|--|--|--|
|  |  |  |  |
|  |  |  |  |

✚ How many lines of symmetry does these shapes have:

| shape                                                                               | Lines of symmetry. |
|-------------------------------------------------------------------------------------|--------------------|
|   |                    |
|  |                    |
|  |                    |
|  |                    |
