I've just read an interesting article about slow living. [1] _____ of people believe a slow life is better for us because we take time to think about what we're doing and enjoy it more. However, not everyone wants a slow life. [2] _____ people, like me, enjoy a fast life. It helps us to feel alive. So, which is better, a fast life or a slow life? Life can become boring when there are [3] _____ exciting activities at all, but [4] _____ excitement can make you tired and stressed. So, we probably need both a fast and a slow life. For example, one weekend, we should do [5] _____ exciting things and the next weekend we shouldn't do [6] _____ exciting activities. By living a fast and slow life, we get the best of both worlds.
