Shut your eyes and think of somewhere

Somewhere ..... and caked in snow

By the fire, we ..... the quiet

Learn to wear each other well

And when the worrying ..... to hurt

And the world feels like graves of dirt

Just close your eyes until

You can ..... this place, yeah, our secret space at will

Shut your eyes, I'll spin the .....chair

And you'll feel dizzy, light, and .....

And falling gently on the cushion

You can come and ..... to me

You can imagine this place, yeah, our secret space at will

Shut your eyes

Shut your eyes and .....to me
