#### 3 Complete the text with a verb + preposition from exercise 2.

### Sleep problems?

When we don't get enough sleep, we feel tired during the day and we find it difficult to work or study. Sometimes we don't sleep because we go to bed and <sup>1</sup> think about our problems. Sometimes there's another reason.

There are sleep labs where doctors study sleep problems and you can spend a night at one of the centres. What happens there? Well, you <sup>2</sup> \_\_\_\_\_ the centre in the evening and a nurse meets you and takes your personal details, then you <sup>3</sup> \_\_\_\_\_ a doctor to arrive. You <sup>4</sup> \_\_\_\_\_ the doctor about your health and about your sleep problems. After that, the nurse takes you to your room. People often watch TV or <sup>5</sup> \_\_\_\_\_ music in their room until they want to go to sleep.

When you're asleep, a computer studies how you sleep and records the information. After your night at the sleep centre, doctors <sup>6</sup> \_\_\_\_\_ your sleep information on the computer.

Do you have problems with your sleep? You can contact a sleep centre and <sup>7</sup> \_\_\_\_\_ more information. Some centres <sup>8</sup> \_\_\_\_\_ your time when you do a sleep study.
