Choose the letter (A, B, C, or D) that is the correct answer to each of the questions.

Sleep is very **important**. Do you know that sleep is more important than food? A person who does not sleep dies at a younger age than a person who does not eat. Let's say you go to sleep 12 hours later than you usually do. It will take your body about three weeks to return to normal. We spend about one-third (1/3) of our lives in sleep.

How much sleep do we need? We are all different. A baby needs 16 hours of sleep every day. Children 6 to 12 years old need an average of 10 to 12 hours of sleep. A teenager needs 9 to 10 hours of sleep. An adult needs an average of 7 to 8 hours a night. Some people need only 3 hours of sleep. Others need 10 hours of sleep. After the age of 50, the average sleep time goes down to 6.5 hours a night. We need less sleep as we get older. Most people have some nights when they cannot sleep. About one in three Americans has a problem with sleep. Many of these people cannot fall asleep or stay asleep. The name of this problem is insomnia. The word *insomnia* means "no sleep."

(Adapted from: https://cltngl.com/assets/downloads/wit4ed_pro0000000540/wit1_unit3.pdf)

4. What percentage of Americans have a sleep problem?
A. 33% B. 53% C. 77% D. 90%
