Kelompok: 3/Three

Tugas B. Inggris (Hal: 19)

The following text is for questions 1 to 3.

Today, we would like to interview Cameron, a poliglot who speaks 27 languages! Do you know about polyglots? They are people who can read, write, and communicate in 3 or more languages.

Cameron is a 14 years old, gifted teenager from Atlanta, Georgia, who is currently learning her 27th language. What an exceptional talent!

Cameron started learning languages at the age of nine. At that time, she met a friend from Austria who felt lonely because she couldn't speak English, so Cameron learned German to help her feel less isolated. She loved the experience, and it started from there.

Cameron wants to travel the world and learn at least a hundred languages! Her favourite is the Kazakh language. She really wants to visit Kazakhstan, Japan, Thailand, and Vietnam.

In the complete interview, you can find how Cameron learns languages. From the process, techniques, and also what apps she uses to learn new languages. Based on the experiences, it takes her about a year to be completely fluent in a new language.

100% PD/PR

1. match the clauses in column **A** with the clauses in column B.

1. A polyglot is someone Who:

2. Cameron needs applications:

3. Most of Austrian:

4. it needs year of learning and practicing:

5. Cameron Dreams:
