5 Read. Then match the pictures to the jobs.

We know about the past because people study history. They are time detectives. Let's learn more about some of these jobs.

1 Palaeontologists _____

Palaeontologists study fossils and learn about the time of the dinosaurs.

2 Archaeologists _____

Archaeologists often have to dig in the ground to look for things to learn about life in the past.

3 Historians _____

Historians are people who study and write about the past. They often teach and give talks to share their information with other people.
