#### **Clothes**

Fashion is a thing that we have to keep up with, whether we like it or not. Anyway, it's important to look attractive. But it doesn't mean that you should be a fashion-conscious person. It may turn out to be a waste of money. Besides, you should have a good taste. Trendy people want to stand out in a crowd but sometimes they don't look stylish.

First of all, clothes should suit you. But there are people who like to wear something unusual, old-fashioned or trendy.

As for me, I like different kinds of clothes, and always try to be properly dressed. When I plan what I am going to wear, I usually think what kind of meeting I have. At school, we have to wear a uniform or to follow a formal dress code. Usually, I wear a jacket, a skirt or trousers with a shirt or blouse. But most people do not like being dressed that way. They prefer smart clothes to formal ones. Besides, I enjoy wearing sport clothes, because I feel comfortable in

them. Also, on my list of likes there are jeans. I usually wear shoes or sneakers. But, when I have an official meeting, I try to wear formal clothes.

Each season of the year brings different weather and, as a result, demands different clothes. When it is hot, people wear T-shirts and shorts, light blouses or shirts and skirts, sport shoes, socks and sandals. In cold weather, people usually put on warm clothes: jeans and trousers, sweaters and jackets, hats and caps. In winter they wear fur coats, scarves, hats, sweaters, high boots, mittens or gloves. When you buy clothes, try them on, make sure that they are your size, that they suit you well and that you like their colour. Think what is good at the sport ground and what is good at the party.
