Interactive TKA Basic English Practice

Textual Comprehension Skills

Soal 1

Level 1

Pilihan Ganda

Indikator: Menemukan informasi spesifik (data numerik) dalam teks.

Teks:

"The human brain is the command center of the nervous system. It is located inside the skull and weighs about 1.5 kilograms. The brain is responsible for processing information, controlling body functions, and enabling thought."

Pertanyaan:

Based on the text, what is the weight of the human brain?

- A. The command center.
- B. About 1.5 kilograms.
- C. Located inside the skull.
- D. Responsible for body functions.

Soal 2

Level 4

Pilihan Ganda

Indikator: Menyimpulkan tujuan utama dari suatu objek berdasarkan fungsi dan akibatnya.

Teks:

"The Suez Canal is an artificial sea-level waterway in Egypt, connecting the Mediterranean Sea to the Red Sea. Opened in 1869, it is one of the world's most heavily used shipping lanes. The canal allows ships to travel between Europe and Asia without having to navigate around Africa, significantly

reducing the distance and time of travel."

Pertanyaan:

According to the text, what is the main purpose of the Suez Canal?

- A. To connect Egypt with Europe.
- B. To reduce travel time for ships between Europe and Asia.
- C. To serve as one of the world's most heavily used shipping lanes.
- D. To provide a new passage for ships to navigate around Africa.

Soal 3

Level 3

Pilihan Ganda Kompleks (Jawaban Ganda)

Indikator: Mengidentifikasi beberapa fakta eksplisit dan memilih lebih dari satu jawaban yang benar.

Teks:

"The solar system consists of the sun and everything that orbits it, including the planets, dwarf planets, moons, and countless asteroids, comets, and meteors. The four inner planets—Mercury, Venus, Earth, and Mars—are rocky. The four outer planets—Jupiter, Saturn, Uranus, and Neptune—are gas giants."

Pertanyaan:

Based on the text, which of the following statements are true? (Pilih dua jawaban yang benar)

Pilih semua jawaban yang benar.

- ☐ The solar system consists of only planets and the sun.
- ☐ The outer planets are gas giants.

☐ The inner planets are rocky.☐ The sun is a gas giant.

Kirim Jawaban

Soal 4

Level 3

Pilihan Ganda Kompleks (Jawaban Ganda)

Indikator: Mengidentifikasi beberapa fakta eksplisit dari teks.

Teks:

"A solar eclipse occurs when the Moon passes between the Sun and Earth... This celestial event can only happen during a new moon. There are three types of solar eclipses: total, partial, and annular... An annular eclipse happens when the Moon is too far from Earth to completely cover the Sun, leaving a 'ring of fire' visible."

Pertanyaan:

Based on the text, which statements are correct about solar eclipses? (Pilih semua jawaban yang benar)

Pilih semua jawaban yang benar.

☐ An annular eclipse shows a 'ring of fire'.☐ A solar eclipse happens during a full moon.☐ There are three types of solar eclipses.☐ A total eclipse happens when the Earth is too far from the Moon.

Soal 6

Level 2

Pilihan Ganda Kompleks (Benar/Salah)

Indikator: Mengevaluasi kebenaran beberapa pernyataan berdasarkan definisi dalam teks.

Teks:

"Volcanoes are mountains that have an opening at the top... A volcano is considered active if it has erupted in the last 10,000 years, dormant if it hasn't erupted but could, and extinct if it is not expected to ever erupt again."

Pertanyaan:

Berdasarkan teks, tentukan apakah pernyataan berikut Benar atau Salah.

1. A dormant volcano is one that will never erupt again.

Benar

Salah

2. An active volcano has erupted in the last millennium.

Benar

Salah

3. An extinct volcano is not expected to erupt again.

Benar

Salah

Kirim Jawaban

Soal 7

Level 4

Pilihan Ganda Kompleks (Benar/Salah)

Indikator: Mengevaluasi kebenaran beberapa pernyataan tentang suatu proses.

Teks:

"Photosynthesis is a process used by plants... to convert light energy into chemical energy... The process... involves the absorption of carbon dioxide, water, and sunlight to produce glucose and oxygen."

Pertanyaan:

Berdasarkan teks, tentukan apakah pernyataan berikut Benar atau Salah.

1. Photosynthesis is a process that uses oxygen to produce carbon dioxide.

Benar

Salah

2. The process converts light energy into chemical energy.

Benar

Salah

3. Water is one of the products of photosynthesis.

Benar

Salah

[Kirim Jawaban](#)**Soal 8**

Level 1

Pilihan Ganda Kompleks (Benar/Salah)

Indikator: Mengevaluasi klasifikasi yang benar berdasarkan informasi teks.

Teks:

"An ecosystem consists of living and non-living things... Living things are known as biotic factors, such as plants, animals, and bacteria. Non-living things are known as abiotic factors, including sunlight, water, and soil."

Pertanyaan:

Berdasarkan teks, tentukan apakah pernyataan berikut Benar atau Salah.

1. Sunlight and water are considered biotic factors.

Benar

Salah

2. Bacteria are an example of a biotic factor.

Benar

Salah

3. Soil is a living component of an ecosystem.

Benar

Salah

[Kirim Jawaban](#)**Soal 9**

Level 5

Menjodohkan

Indikator: Mengklasifikasikan informasi dari beberapa kalimat ke dalam kategori yang saling terkait.

Teks:

"The Earth's atmosphere is divided into five main layers... The troposphere is the lowest layer, where weather occurs. The stratosphere contains the ozone layer... The thermosphere is where the International Space Station orbits."

Pertanyaan:

Based on the text, match each atmospheric layer with its correct characteristic.

Pasangkan pernyataan dengan kategori yang sesuai.

1.

Troposphere

Where weather occurs

Contains the ozone layer

Where the ISS orbits

2.

Stratosphere

Where weather occurs

Contains the ozone layer

Where the ISS orbits

3.

Thermosphere

Where weather occurs

Contains the ozone layer

Where the ISS orbits

Soal 10

Level 5

Menjodohkan

Indikator: Menyajikan kembali informasi dengan mengelompokkan item dengan karakteristik utamanya.

Teks:

"A cell is the basic structural and functional unit of all known living organisms. The two main types of cells are prokaryotic and eukaryotic. Prokaryotic cells do not have a nucleus. Eukaryotic cells have a nucleus and other membrane-bound organelles."

Pertanyaan:

Based on the text, match each type of cell with its correct characteristic.

Pasangkan pernyataan dengan kategori yang sesuai.

1. Eukaryotic cells

Do not have a nucleus

Have a nucleus

2. Prokaryotic cells

Do not have a nucleus

Have a nucleus
