21. Visitors to the country have been asked to fill in a detailed \_\_\_\_\_. (**question**)

22. The kids are having an \_\_\_\_\_ time at the movies. (**enjoy**)

### **PART 3. READING**

**Read the following passage and do as direct.**

Do you ever think about what schools will be like in the future? Many people think that students will study most regular classes such as Maths, Science and History online. Students will probably learn these subjects anywhere using a computer. What will happen if students have problems with a subject? They might connect with a teacher through live video conferencing. Expert teachers from learning centres will give students help wherever they live.

Students will still take classes in a school, too. Schools will become places for learning social skills. Teachers will guide students in learning how to work together in getting along with each other. They will help students with group projects both in and out of the classroom.

Volunteer work and working at local businesses will teach students important life skills about the world they live in. This will help students become an important part of their communities. Some experts say it will take five years for changes to begin in schools. Some say it will take longer. Most people agree, though, that computers will change education the way TVs and telephones changed life for people all over the world years before.

23. All classes will be taught online in the future.

- A. False                      B. True

24. Computers will change education in the future.

- A. True                      B. False

25. Teachers will help students from home in the future.

- A. False                      B. True

26. Computers can't help students study social skills.

- A. True                      B. False

27. The main role of teachers in the future will be \_\_\_\_\_.

- A. providing students with knowledge              B. guiding students to learn computers  
C. helping students with group projects              D. organising live video conferences

28. Students will learn important life skills through \_\_\_\_\_.

- A. going to school every day              B. taking online classes

C. working in international businesses

D. doing volunteer work

**Choose the word (A, B, C or D) that best fits the blank space in the following passage.**

Redwood trees are (29) \_\_\_\_\_ tallest trees in the world. Some grow over 300 feet high, which is taller than a 30-story building. Think of it this way: If a six-foot tall man stood at the base of a redwood tree, the tree would be 50 times taller than the (30) \_\_\_\_\_. These giant trees grow near the coast of California and Oregon. The climate is foggy (31) \_\_\_\_\_ rainy there, which gives the redwoods a constant supply of water. Redwoods can grow for hundreds of years; in fact, (32) \_\_\_\_\_ have lived for over 2,000 years! The bark is very thick, protecting the trees (33) \_\_\_\_\_ insects, disease, and fires. The bark of redwood trees is a reddish-brown color. Redwood trees are very (34) \_\_\_\_\_ to the lumber companies because the trees are so large that each one can be cut into lots of lumber.

29. A. a                      B. an                      C. the                      D. Ø

30. A. man                      B. base                      C. tree                      D. building

31. A. with                      B. also                      C. so                      D. and

32. A. none                      B. some                      C. all                      D. one

33. A. from                      B. under                      C. above                      D. about

34. A. useless                      B. careful                      C. important                      D. expensive
