## Months of the year

I'm so happy because I learned the months at school. My teacher taught me all twelve months of the year. January and February are the coldest months in Saudi Arabia. In March, the weather starts to get warm and nice. April is when we have a long school break. In May, the weather gets hot, so we can't play outside for a long time. It gets very, very hot in June and July. August is the last month of our summer vacation. In September, I start a new grade at school. October is when the weather starts to cool down a little. November is a great month to go to the park with my family. December is when we have nice, cool weather again.
