

Dear William,

I just received your postcard yesterday. I am so happy for you! Finally, you are in Mexico! **(1)**

does it feel to be in another country for the first time? I remember last year my family also took a trip to Isla de Corales. We went swimming on the second day. When we got near the island, I was so excited that I forgot to **(2)** on my life jacket and immediately jumped into the water. In the water, I could see many small fish and jellyfish swimming around me. I completely forgot how **(3)**

I was in the water for! Have you ever **(4)** swimming in the sea? If you haven't, I would strongly recommend that you do. It is such a great experience that you will never forget it in the future.

Please **(5)** care and I hope to see you again soon when you return.
