

Dear Sarah,

How are you? I'm **(1)**

to organise a party to celebrate the Dragon Boat Festival this Saturday. Would you like to come? I thought about baking a banana cake, just like we made last time at our Easter party. It was one **(2)**

the best cakes that I have ever tasted in my life! Unfortunately, I've forgotten how to make it. Do you still have the recipe?

At the party, there will not **(3)** too many people, only my parents, my neighbour and me. My neighbour and I get along with each other very well. Besides, I want you to meet her **(4)**

she's a very cool person. I know you are really busy right now with your exams, but **(5)** you have time to join us, I think it would be great. Maybe we could help you to revise before your exams as well! Please write back soon,

Anna
