

Uncle Peter came and drove me to a forest. It was a rather long drive, but it was very interesting to drive through the countryside. In the forest, I met two **(1)** my best friends, Sarah and Sue. Their parents also took them there **(2)** car. We made boats from an old newspaper and then sailed them down the river. It was very windy so the boats moved really fast. The boat that Sue had made moved **(3)** fastest because it was the best one.

Afterwards, we went fishing. It **(4)** us an hour before we caught our first fish. After two hours, we had caught four fish. Then we gathered some wood and Uncle Peter made a fire so we could cook the fish for our lunch. It was a few minutes before the fish were ready. We were all so hungry, **(5)** we ate very fast.

Overall, it was a great day for all of us.
