

BEOWULF

Geats and Danes

- ❖ Beowulf was a war leader of the [red box], a group of people in what is now southern Sweden
- ❖ [red box] was king of the Danes

His kingdom was being attacked by the monster
[red box].

Beowulf was written and recited in [orange box], but it was about people in [orange box].

The first [orange box] in Britain were descendants of Germanic and Scandinavian tribes that travelled to [orange box] in the 5th century.

The story takes place centuries before [orange box] appeared. It's about pagan stories.
