

TRAPEZOID AREA SHEET 2

Find the area of these trapezoids. They are not drawn to scale.

1)

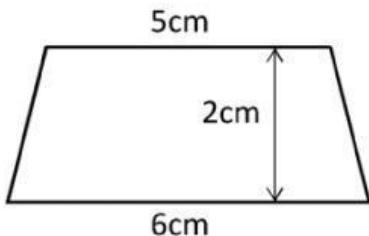

$$\text{Area} = \underline{\hspace{2cm}} \text{cm}^2$$

2)

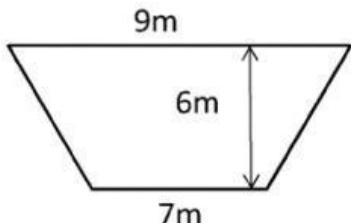

$$\text{Area} = \underline{\hspace{2cm}} \text{cm}^2$$

3)

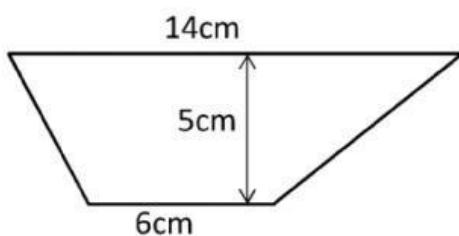

$$\text{Area} = \underline{\hspace{2cm}} \text{cm}^2$$

4)

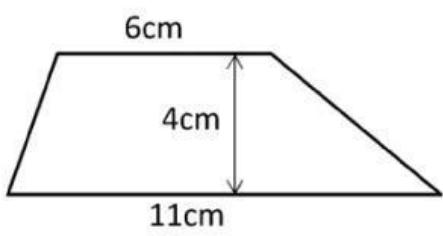

$$\text{Area} = \underline{\hspace{2cm}} \text{m}^2$$

5)

$$\text{Area} = \underline{\hspace{2cm}} \text{cm}^2$$

6)

$$\text{Area} = \underline{\hspace{2cm}} \text{cm}^2$$

Handy hint:

The formula for the area of a trapezoid is
 $\frac{1}{2} \times (\text{length1} + \text{length2}) \times \text{height}$
