Match the four texts on the left with the texts in the box.

Texts	Statements
1- A <b>snowstorm</b> happens when a lot of snow and strong wind cover everything in white. It makes it hard to travel, and people can't see or drive safely. _____	A. People must move to higher places and follow warning signs. They should wait for rescue teams and never go near the sea.
2- A <b>drought</b> means there is no rain for a long time. Plants die, and animals can't find water. Farmers lose their crops, and people have less clean water to use. _____	B. We can plant trees that need less water. Helping farmers and using water carefully keeps life going during dry seasons
3- A <b>flood</b> happens when heavy rain or storms fill rivers and streets with water. Homes and cars can be damaged. _____	C. People should stay inside and wear warm clothes. It's important to keep food and water ready in case the roads are blocked by heavy snow.
4- A <b>tsunami</b> is a very large ocean wave caused by an earthquake under the sea. It moves fast toward the land and can destroy houses and trees. _____	D. Emergency kits with food, water, and first aid help families survive during disasters.
5- A <b>forest fire</b> starts when trees and grass burn because of heat. It spreads quickly, destroys homes and forests, and fills the air with smoke. _____	E. It can be stopped by not throwing rubbish or glass in nature. Firefighters and volunteers plant new trees to bring back life to burned areas.
	F. People can build walls and drains to protect their homes from high level water.
