Title: The Impact of Technology on Learning

In recent years, the role of technology in education has transformed dramatically. Digital platforms (nền tảng) (1) _____ (design – thiết kế) to support online learning have become essential, especially during global disruptions like the COVID-19 pandemic. The resources (2) _____ (make) available through these platforms help students access knowledge anytime and anywhere.

Educators (3) _____ (seek – tìm kiếm) innovative ways to engage students are now turning to gamification and AI-based learning tools. For example, apps (4) _____ (use) artificial intelligence (AI) can adapt content to each student's pace and learning style.

However, there are also concerns. Some materials (5) _____ (publish - xuất bản) online lack academic credibility (độ đáng tin cậy). In addition, students (6) _____ (depend) too heavily on technology may struggle with critical thinking and real-life interaction.

Schools (7) _____ (equip – trang bị) with smart classrooms have reported better engagement, yet the gap between institutions (8) _____ (lack) funding and those (9) _____ (receive) private investment is growing.

To address these challenges, governments and educators must ensure that all students, regardless of background, can benefit from the tools (10) _____ (provide) by the digital age.
