Nivel: Decimo

Nombre del estudiante: \_\_\_\_\_

Profesora tutora de aula de apoyo: Julieth Brenes Brenes

Primer Periodo

## ESFERA

### Actividad 1

1. Use la fórmula para encontrar el área de la esfera

$$A = 4\pi r^2$$

$$A = 4\pi \cdot \underline{\hspace{2cm}}$$

$$A = \underline{\hspace{2cm}}$$

$$A = 4\pi r^2$$

$$A = 4\pi \cdot \underline{\hspace{2cm}}$$

$$A = \underline{\hspace{2cm}}$$

$$A = 4\pi r^2$$

$$A = 4\pi \cdot \underline{\hspace{2cm}}$$

$$A = \underline{\hspace{2cm}}$$

$$A = 4\pi r^2$$

$$A = 4\pi \cdot \underline{\hspace{2cm}}$$

$$A = \underline{\hspace{2cm}}$$

$$A = 4\pi r^2$$

$$A = 4\pi \cdot \underline{\hspace{2cm}}$$

$$A = \underline{\hspace{2cm}}$$

2. Identifique los elementos de una esfera y anote si corresponde a: diámetro, centro o radio.
