We stayed in this old apartment in Rio for a week. It was decorated in fantastic colours – the <sup>1</sup> in the windows and the carpets were good quality and everything perfectly <sup>2</sup> the building. There was a <sup>3</sup> living room with two big sofas and several comfortable <sup>4</sup>. It had long shelves covering one wall from floor to <sup>5</sup>, with books. The kitchen had lots of <sup>6</sup>, although we didn't do much cooking. There was a <sup>7</sup> which we used to make ice for our drinks, but it was <sup>8</sup>, with very little room to store any food. The washing machine was downstairs in the <sup>9</sup>. The owner <sup>10</sup> all the boxes for his business down there, and they <sup>11</sup> quite a lot of space, but it wasn't a problem. Our bedroom was in the <sup>12</sup>, but it was big and even had a <sup>13</sup> wardrobe with lots of space for clothes. It was very warm and <sup>14</sup> at night, and we had great views of Sugarloaf Mountain. It got really hot during the day, so we definitely needed to use the <sup>15</sup>.
