bottles      care      die      environment      litter  
plastic      protecting      puts      save      throw

Hi! I'm Annie. This is my blog about

(1) protecting Britain's beaches.

Over the past decade, the rubbish on our beaches has got much worse ☹ – there's twice as much rubbish as ten years ago!

People leave plastic (2) \_\_\_\_\_, cans and other (3) \_\_\_\_\_ after their picnics. Some rubbish comes from the sea too. People on ships (4) \_\_\_\_\_ things into the water. The rubbish looks terrible and it (5) \_\_\_\_\_ seabirds in danger. It's very dangerous for whales and dolphins too. They think plastic bags are food and eat them and they (6) \_\_\_\_\_. ☹ ☹ ☹

I'm a volunteer for the Marine Conservation Society (MCS). We want to clean up our beaches. We meet every month and collect big bags of rubbish. Do you (7) \_\_\_\_\_ about our beaches? Come and help us! If you come, you'll have fun and you'll help the (8) \_\_\_\_\_. ☺ ☺ ☺

## 4 Przeczytaj ponownie tekst z ćw. 3 i odpowiedz na pytania.

1 What is Annie's blog about?

It's about protecting Britain's beaches.

2 Do people leave more or less rubbish than before?

3 What do people leave on the beaches?

4 Where else does the rubbish come from?

5 Why do whales and dolphins eat plastic bags?

6 How often does Annie help clean up beaches?
