OLD CARS

My uncle decided a very old car. In his opinion, only old cars have "souls" and are unique. His wife was very angry with him when she learnt that he was going to spend money on some kind of "wreck". In her opinion, old cars break all the time, and you have to spend a lot of money not only on the car itself, but also on repairs. Nevertheless uncle George said he would not change his , and one day he bought the car he wanted. It was made in 1930 in Germany. My uncle believed in quality, and his car generally didn't disappoint him. He spent a lot of time polishing his car and repairing small details. He was very proud the car, and one day he invited his wife for a ride. My aunt was scared that such an old car might cause an accident, but my uncle tried to convince her that it was the safest car all the world. After they had returned , my aunt admitted that it had been a very interesting experience. Now, she doesn't mind my uncle a few hours a day in his garage any more.
