

1. Read the story. Choose a word from the box. Write the correct word next to numbers 1-5.

fly - robots - a - fix - green - factory - slowly - app - university - an - broken

In 2050, Tom will go to **a** new school in the city. He is very happy because the school will be full of technology. There will be computers in every classroom and big smart boards on the walls.

His teacher says, “In the future, we will have (1) \_\_\_\_\_ to help us. They will walk, talk, and explain difficult things to the students.”

Tom’s sister has another plan. She wants to (2) \_\_\_\_\_ cars when she grows up. “Many cars will be electric, but they can still be (3) \_\_\_\_\_ sometimes, so I will help people fix them. I think it will be fun!”

At work, their dad will spend his days in a big (4) \_\_\_\_\_. There, machines and drones will make new clothes, toys, and computers. He will say, “Factories will be very clean in the future. They won’t make smoke like in the past.”

Tom dreams of a (5) \_\_\_\_\_ world, with lots of parks, trees, and gardens. “Maybe robots will even plant flowers and water them. Life will change, but I think it will be better.”
